

sabre[®] WING

Meet the First Wing-Specific Blade on the Market.

Wing plowing made easy! The **Sabre[®] WING Blade** by Evolution Edges is a revolutionary one-of-a-kind solution designed to improve carbide cutting edge performance when wing plowing.

WING CLÄDE LËY GËÄTÛRËŠ:

- **3/4-inch Hardox[®] cover plates**
2x the thickness of traditional Sabre blades.
- **1-inch tall carbide inserts**
33% more carbide than the Sabre HD 3/4-inch insert.

**NEW
COVER PLATE
DESIGN!**

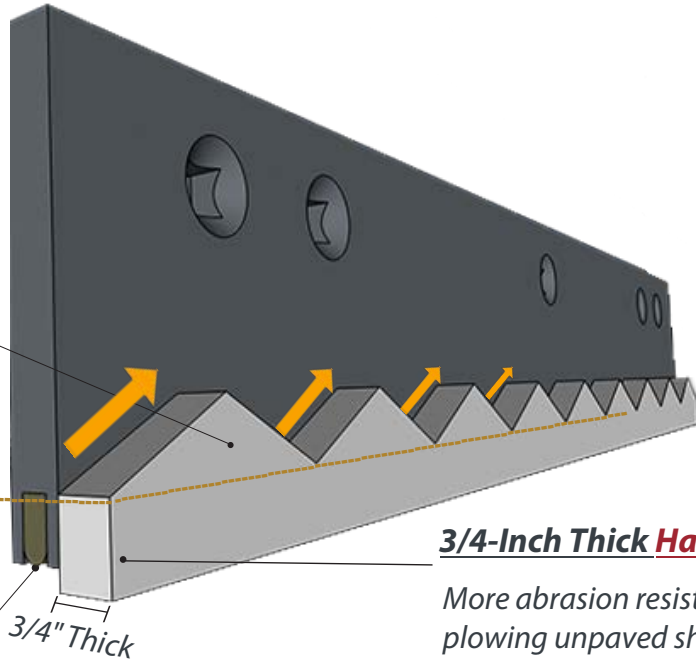

sabre[®] WING

ARMORED CARBIDE SNOWPLOW BLADE

New Cover Plate Design

Improved discharge when wing plowing.

Wear-Indicators

3/4-Inch Thick **Hardox[®]** Cover Plate

More abrasion resistance when wing plowing unpaved shoulders.
Larger footprint to prevent digging.

1-Inch Tall Carbide Insert

More wear life, less blade changes.

**Direction of Travel
(Wing Plows Only)**
